

# Music Therapist Job Posting

Making a difference through music!

## Seeking a board-certified music therapist to join our team!

Integrative Music Therapy and Optimal Rhythms, Inc. strive to support individuals with disabilities to achieve their maximum potential while building confidence and independence through **Neurologic Music Therapy** strategies. Services include individual and group music therapy sessions, school-based programs, consultation, community advocacy, and other unique programs.

With additional training, therapists have the opportunity to work with ACCESS Academy, a therapeutic day school for students with severe autism run by Optimal Rhythms, Inc., and Music Together®, a nationally recognized parent-child music education program.

We are seeking one or more highly motivated music therapists to serve Evansville, IN and the surrounding areas. Full time positions are available. MT-BC credential required prior to start, NMT certification preferred, but not required. Therapist must have a valid driver's license and reliable transportation.

Therapists have the opportunity for ongoing supervision, experiential and educational workshops, and professional development as part of a team-centered work environment.
